

WAGNER BA 30
Bale braker

WAGNER BA 30

Bale braker

Areas of application:

In order to make further processing of the goods possible, the bales are broken by the machine and the material separated.

Thus, PET bottles can be sorted and any contaminants separated out.

Advantages:

- The BA 30 has a unique function and technology
- User-friendly operation
- Robust and compact design
- Maintenance-friendly

Features:

- **The control system**
User-friendly, performance-optimized control concept
10 freely programmable parameter sets (work programs)
Precise rotor current control
Frequency converter (optional) for adjusting the material flow
- **Tools**
Robust, made of special steel
Can be used multiple times
Mounted on replaceable brackets
- **Opening roller**
Protected against wear
Intelligent arrangement of the tools
- **Drive**
V-belt drive
Proven European high-quality gears
Available with different output levels

Model	Length (mm)	Width (mm)	Height (mm)	Work area (mm)	Drive power (kW)	Weight approx. (kg)
